

Adobe Scan to WordQ

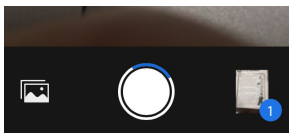

1

Use the Adobe Scan app to take a picture of your document.

2

Once you have taken the scan, open it up by selecting the image of it (bottom right).

3

Save the PDF (top right)

Save PDF

4

On your laptop, go to <https://adobe.ly/2DWMLeW>
If you are signed in to Chrome, just sign in through Google instead of typing in your email and password.

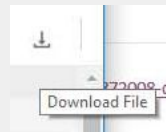

5

Open WordQ!

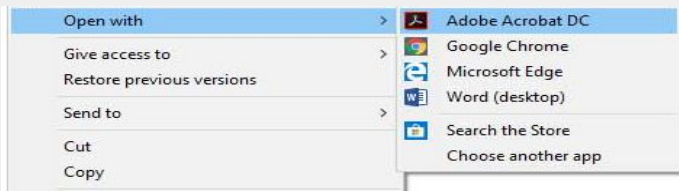

6

Once logged into Adobe Document Cloud, find the document you scanned and download it!

7

Open your PDF document with Adobe Acrobat Reader.

8

You are now ready to read and write into the document with WordQ.
